DATA SCIENTIST/WEB DEVELOPER

"I'm a versatile professional proficient in both data science and web development. In data science, I excel at transforming data into actionable insights using Python, R, and machine learning. In web development, I create dynamic and robust applications with JavaScript, React, Node.js, and databases like SQL and MongoDB. I stay current with evolving technologies in both fields to deliver innovative solutions."

KEY COMPETENCIES

- HTML
 - Ccss
 - Javascript
 - Express.js
 - Node.js
 - MongoDB
 - AngularJs
 - Json Server
 - Restful API
-

PROFESSIONAL EXPERIENCE

Conton Discount

July 2022 - Present

Shop Manager

- Monitored store performance and evaluated employee performance for compliance with company policies and procedures

 - Identified and addressed impediments to team progress and success, resulting in smoother flow of work and improved team morale
 - Offered strong customer service skills, keeping customers satisfied and increasing sales by average of 20% annually.
-

EDUCATION

- Master of Science: Data Science, Cardiff Metropolitan University - Cardiff **2021-09 - 2023-04**
 - Bachelor of Computer Application Punjabi University of Patiala - Nangal, Punjab **2016-03 - 2018-04**
 - 12th Standard National Fertilizer Limited School - Punjab, India **2014-04 - 2015-03**
 - 2012-03 - 2013-04 10th Standard National Fertilizer Limited School - Punjab, India **2012-03 - 2013-04**
-

CERTIFICATIONS

- Internship Experience Uk-2022 -technology
 - Python Certification for Data Science
 - Full stack web development, Udemey
-

PROJECTS

Health Care Website (Angular):

- Created a healthcare website using Angular.
- Incorporated components for patients, doctors, and appointment booking.
- Integrated JSON Server for efficient CRUD operations within these components.
- Implemented Angular routing to ensure smooth navigation and a user-friendly experience.
- Collaborated with the backend team to optimize JSON Server endpoints and ensure seamless integration.
- Conducted rigorous testing to ensure smooth functionality and data management for patients, doctors, and appointments.

Blog Website (HTML, CSS, JavaScript, SQL):

- Developed a dynamic blog website using HTML, CSS, and JavaScript for the front end.
- Designed and optimized a SQL database schema for efficient storage and retrieval of blog posts and user data.
- Implemented user authentication, enabling registered users to securely create, edit, and manage their blog posts.

Weather Project (APIs):

- Developed a dynamic weather application by integrating APIs, providing users with real-time weather updates and forecasts for multiple locations.
 - Designed and implemented a user-friendly interface that allowed easy input of locations and delivered instant weather information, enhancing user experience.
 - Utilized data visualization tools to create interactive weather charts and graphs, effectively communicating complex weather data trends to users.
-

HOBBIES AND TECHNOLOGIES INTEREST

- Passionate about exploring and experiencing new tech gadgets, incorporating them into hobbies and daily activities.
- Enjoy playing outdoor games like football and tennis for physical activity and recreation.
- Appreciate watching movies as a way to unwind and enjoy various genres.
- Enthusiastic about staying updated with the latest technologies and trends, particularly in the realm of gadgets and tech innovations.
